

Declaration of Manufacturer REACH

Regulation **(EC) 1907/2006 (REACH regulation)** on the registration, classification, admission, and restriction of chemical agents.

It regulates the handling of chemical substances in preparations and products.

REACH should allow the use of chemical substances to be traced seamlessly from production to end use.

Following a pre-registration of all substances by the manufacturer or importer, the individual chemical substances will be registered by 2018.

Registration of chemical substances

- Murdotec Kunststoffe is a "downstream user" within the meaning of REACH. Our products are considered "products" and not "substances" and as such do not require registration.
- The raw materials used are either not subject to any registration requirements (polymers) or are registered by our suppliers (auxiliary materials, additives).
- No chemical substances are released from our products under normal conditions of use (cf. Art. 7 Paragraph 1 of the REACH regulation).

Substances of very high concern (SVHC) according to Article 33 of the REACH regulation

- As far as we know today, our products do not contain any of the "substances of very high concern" on the candidate list of the European Chemicals Agency ECHA.
- ECHA candidate list: <http://echa.europa.eu/de/candidate-list-table>
- We comply with the obligation according to Article 33 of the REACH regulation and notify our customers immediately if, according to the latest state of knowledge, our products contain "substances of very high concern" above the limit of 0.1%.

We hereby confirm that all Murdotec Kunststoffe products comply with the REACH regulation.
